Addis Ababa, Ethiopia

Aspiring Front-end Developer with a solid grasp of full-stack MERN development. Possessing expertise in building responsive and visually appealing web interfaces using HTML, CSS, and JavaScript, coupled with a deep understanding of modern front-end frameworks such as React.js. Excited about collaborating with teams and dedicated to delivering quality work from start to finish. Ready to apply my enthusiasm and determination to contribute to exciting development projects.

Work Experience

Frontend Developer

Feb 2024 - Jul 2024

My Health

As a Front-end Developer for the My Health Integral digital health platform, my responsibilities include planning and executing front-end tasks for logistics, delivery, and patient transport solutions. Leveraging HTML, CSS, JavaScript, and React.js, I ensure seamless integration and enhance functionality. Collaborating closely with back-end developers and stakeholders, I prioritize effective communication and timely delivery. My achievements include optimizing performance, meeting project deadlines, and receiving positive feedback for improving user experience and functionality.

Frontend Developer Intern

Dec 2023 - Feb 2024

Trust ICT Solutions | Addis Ababa

- I developed the front-end of a coffee website based on a Figma design using React.js, meticulously translating design elements into a responsive and engaging user interface.
- I worked on an e-school dashboard, focusing on developing the front-end aspect and integrating it with APIs to ensure seamless interaction and functionality.
